Besuch von Schülerinnen und Schüler unserer Partnerschule in St. Petersburg

Vom 20. - 30. Mai 2019 besuchten 2 Schülerinnen und 8 Schüler mit ihrer Lehrerin Frau Rashich Hamburg und die BS19.

Ihre Eindrücke fassten sie folgendermaßen zusammen:

Hi, my name is Anna Stoyanovich. I am 19, a third-year student.

I study Computer Programming at my college. It was interesting for me to see what classes look like at Berufliche Schule Farmsen. The equipment and computers impressed me very much. It's very important that education is greatly practical-oriented.

Besides classes at the school, we also had a lot of sightseeing with Reiner and Mechatronics students Christof and Christian. I am really thankful for their assistance. Places which impressed me the most are Rathaus and Hauptkirche Sankt Michaelis, especially bird view from the top of the church.

Hamburg is very green and hospitable city. Also I fell in love with Pflanzen und Blumen garden.

Vielen vielen Dank to all the people who guided us and who was helpful to us.

See you soon in Saint-Petersburg!

Hallo! Ich heiße Alina. Ich bin 19 Jahre alt. Ich komme in Sankt-Petersburg, bin aber in der Stadt Babaewo in dem Wologodskaya Gebiet geboren.

Ich lerne im technischen College der Verwaltung und des Handels auf der Fakultät der Radioelektronik, auf 4 Kurs.

Die Fahrt in Deutschland hat mir gefallen. Aus der ganzen Fahrt will ich das deutsche System der Ausbildung, prächtige Architektur der Stadt und der einträchtigen Leute aussuchen. Ich hoffe, nach Deutschland zurückzukehren.

Tschüss! Vielen Dank!

My name is Aleksander Oreshko. I was born in Irkutsk region. Then our family moved to St. Petersburg and I went to Technical College. I'm 18 years old. I'am a second-year student.

This is my first visit to Hamburg. In Hamburg there is a lot of nature.

In Berufliche Schule there is a friendly and nice atmosphere.

Greatly hope to come to Hamburg next year!

Hello, my name is Georgii Nuttikhin.

I'm 17 years old. I live in Saint-Petersburg. I study at Technical college of Management and Commerce. My specialty is Radio and Electronic devices. This is my first trip to Hamburg and Germany. I think that dual system in vocational education allows to develop two skills: theoretical and practical.

I really liked the architecture of Hamburg. Here I met friendly and experienced teachers at Berufliche Schule Farmsen. I really enjoyed this trip and will remember it for a long time.

I discovered a lot of new and interesting things. I'm very grateful to our coordinator Reiner Beyer.

Welcome to Saint Petersburg, Russia :)

Hello everybody! My name is Andris. I am 18 years old. I want to share my impression about trip to Hamburg. Let's start with the school where my exchange program. It's name BS19. They are well-equipped and modern class rooms with sophisticated devices. As for Germany students they are responsible and they are motivated for future work. (Special respect to Christof and Christian for their support during our visit).

Secondly, I'd like to say about Hamburg. We visited the most popular sightseeing places like Elbphilharmonie, town hall, St. Michael Church. Last my favourite because you can climb and see the whole city from bird sight.

Many thanks to everybody who showed us the city and of course to Reiner Beyer. Hope to see you soon in St.Petersburg. I will be your host then !!!
